## 3.1 Men's Residential Program

### Overview

Located in Southern Maryland, our licensed and accredited program offers individualized residential substance use treatment for adult men. The average length of stay is 4 to 6 months, but can vary in order to provide a stable and supportive environment ideal for men who are transitioning from a higher level of care. Maryland Medicaid and most commercial medical insurances are accepted.

### Collaborations

We partner with local outreach programs including Pathways, JobSource and Beacon of Hope to assist our clients with obtaining a job, providing transportation and certifications. We also introduce our clients to a number of local recovery groups.

### Black-Out Period

During the required 30-day black-out period, clients can access their cell phone, tablet, and/or laptop but are not permitted to leave the premises without a staff member present. Clients are encouraged to seek employment during the black-out period and transportation will be provided for interviews with 48-hour notice. Clients are welcome to join all community outings for 3.1 residents even during the black-out period. A monthly schedule of events is provided.

### Schedule

Clients in our 3.1 program follow a structured schedule that includes treatment groups, recovery groups and engagement in community activities. All residents are required to start the day by 8:30 AM Monday through Sunday, and lights go out at 10:45 PM Monday through Thursday and at 11:45 PM Friday through Sunday.

### Outings

Those with a valid driver's license, current registration, and insurance are permitted to keep one personal vehicle on-site.

Requests for 2-23 hour and 24-48 hours passes must be submitted 24 and 48 hours in advance, respectively. Passes are subject to approval by the Case Manager and Counselor and are issued between 9:00 AM to 10:00 PM Sunday through Thursday and from 9:00 AM to 11:00 PM Friday and Saturday.

If the client uses outside transportation, the driver is required to show valid driver's license, registration, and insurance. Clients will also need to sign a release in order to leave with the driver.

**After any outing without staff, clients will be subject to urinalysis and a body search.**

### Employment

Within 30 days of entering the program, clients are expected to secure employment. If unable to find a job within this time frame, clients must obtain a volunteer position for at least 20 hours per week.

During the black-out period, Case Management prepares clients for job readiness with resume prep, mock interviews, job searches and more.
